

48<sup>th</sup> Session of the Commission on Population and Development  
13-17 April 2015

Panel discussion

## Integrating population issues into sustainable development

Wednesday, 15 April 2015

11:00 am – 1:00 pm

United Nations Headquarters, Conference room 4, Conference Building

Moderator: **Pamela Falk**

UN Resident Correspondent & Foreign Affairs Analyst, CBS News TV & Radio

**Mark Montgomery**

Senior Associate,  
Population Council and  
Professor, Stony Brook  
University

**Gita Sen**

Professor of Public  
Health, Indian Institute  
of Management in  
Bangalore

**Jacob R. S. Malungo**

Professor of Demography,  
University of Zambia

**Lori Hunter**

Professor, Sociology and  
Environment & Society  
Program, University of  
Colorado at Boulder

**Mark Montgomery** is a researcher in the Population Council's Poverty, Gender, and Youth program, and is professor of the Economics Department at Stony Brook University, New York. His recent research has been mostly on world urbanization, city growth, and the effects of climate change on urban populations, on which he has published extensively. Mark holds a Ph.D. from the University of Michigan and serves, among others, in the editorial board of the *Journal of Urban Health* and the scientific advisory board of the Wittgenstein Center for Demography and Global Human Capital.

**Gita Sen** is a development economist at the Centre for Public Policy, IIMB and Adjunct Professor of Global Health and Population, Harvard School of Public Health. She has a Ph.D in Economics from Stanford University and an M.A. in Economics from the Delhi School of Economics. Her research areas are broadly on human development with a focus on health, population, gender and development, and inequality. She is the President of the Health Economics Association of India, and has worked with various agencies of the United Nations system, including the UNDP, WHO, UNWomen and UNFPA.

**Jacob R. S. Malungo** is professor at the Social Development Studies Department, University of Zambia. He is a demographer with research experience on demographic change and employment, fertility, and various aspects of the HIV/AIDS epidemic in Zambia and Africa. Mr. Malungo holds a Ph.D in Demography from the Australian National University, and is a member of the International Union for the Scientific Study of Population and of the Inter-agency Technical Committee on Population in Zambia.

**Lori Hunter** is professor of sociology and at the Environment & Society Program, Institute of Behavioral Science, University of Colorado Boulder, where she is also Associate Director of the Population Center. She is a demographer specializing in migration as a livelihood strategy for natural resource-dependent households across the globe. She has published extensively on these topics, and has been Editor in chief of environmental demography's core journal, *Population and Environment*, for 7 years.
